

Typical Dive Plan (Flower 8)

Day 1 - 9am to 3pm

Wonderwall, Snappers Cave and Dap Dap

If you only have one day of diving with us then these are the sites to do. Explore our wreck, our caves, see sea horses and then end with a nice shallow third dive.

Day 2 - 9am to 3pm

Lumayak, Pogaling and Paradise Gardens

Here we have three stunning dives with great scenery and huge schools of fish. Don't forget to look out into the blue for that whaleshark.

Day 3 - 9am to 3pm

Neptune's House, Titanic Rocks and Bacong

Start with a deep cave dive then bring your camera to Nudibranch heaven. Finish in Bacong and look for turtles.

Typical Times

Flower Beach to Pogaling - 30 mins

Flower Beach to Titanic Rocks - 45 mins

Typical Dive Plan - Nemo

Day 1

- 10am Virgen West
- 1pm Bacong
- 5.30pm Dap Dap (night dive)

Diving should be **SAFE**. That's why we only do no decompression diving here and we stay well away from our limits. We always give guests a full briefing and a good safe dive plan. We offer 'comfy' dives to get back into practice. Our rental equipment is serviced regularly and our compressor is well maintained.

Diving should be **FUN**. We keep groups small so you see the reef not just the back of someone's fin. Our guides all know the dive sites by heart and where to find all the good stuff. We build dive trips around our guests preferences and experience. We make our courses fun and interesting.

Diving should be **EASY**. With Abyss Divers there is no fighting against current, all dives are drift dives and the boat will pick up the group. We load your equipment and change tanks so all you have to do is relax and dive.
